

## **30 YEAR WARRANTY – VENT Circular Soffit Vents**

Blue Building Solutions Ltd. t/a VENT warrants that VENT Circular Soffit Vents supplied by VENT will retain their mechanical function for a period in excess of 30 years, under natural conditions, from the date of purchase. Provided the Circular Soffit Vents are installed in accordance Design & Specification Guides supplied by VENT.

VENT warrants the VENT Circular Soffit Vents under the following terms & conditions:

- a. This warranty is given to consumers as defined in and who have the rights under the Consumer Guarantees Act 1993 and should be read with the statutory consumer guarantees contained in that Act.
- b. This warranty will apply to defects appearing within 30 years from the date of purchase & where notification of defects is received in writing within 28 Days of the defect appearing.
- c. warranty will only be honoured if the VENT products in question were installed, used and maintained in accordance with VENT installation guides all of which are available on [www.eboss.co.nz](http://www.eboss.co.nz) and on the VENT website [www.vent.nz](http://www.vent.nz)
- d. Warranty will not apply to damage caused by external physical agents, accidental damage or other Force Majeure.
- e. The sole & exclusive remedy with regard to the above warranty is limited to the repair or supply of replacement profiles at VENTs discretion

This warranty shall be construed and interpreted in accordance with New Zealand Law and shall be subject to the jurisdiction of New Zealand Courts only.

This warranty does not affect the statutory rights of consumers.

## Product Information Sheet

### VENT Circular Soffit Vents – G700

#### VENT CIRCULAR SOFFIT VENT - G700

G700 Vents can be utilised for new build & refurbishment projects. The G700s are an easy retro fit solution for existing soffits on both Skillion and Trussed roof designs with condensation problems. Standard fixing for this product is a simple push twist action into a 70mm hole drilled in the soffit board.

The G700 are designed with 4mm evenly spaced openings specifically sized to prohibit large insects gaining access but wide enough to prevent capillary action.

The G700 comes in white, black or brown colours.

This product should be used in conjunction with the VENT Eaves Vent (EV25) or VENT Roll Rafter Tray (G502) to ensure continuous airflow into the roof void.

Fig A: Trussed Roof Application

#### VENT Eaves Vent - EV25

(25,000 mm<sup>2</sup> in/m)

#### VENT Circular Soffit Vent - G700 (any roof pitch)

(10,000 mm<sup>2</sup> in/m @ 200mm crs.) or (25,000 mm<sup>2</sup> in/m @ 86mm crs.)
